From the Editor

The 2015-2016 Georgia Southern University Graduate Studies Fact Book provides an in-depth look into Georgia Southern's graduate studies programs by providing graduate enrollment, degree, and peer information, as well as general information about the University's history and progress. The information presented in this reference book is based on fall census, fiscal year, and historical data, where appropriate. It is our wish that this document will provide insight into the complexity of Georgia Southern University. We welcome your comments!

Profile of Georgia Southern University

Georgia Southern University, classified as a doctoral/research institution by the Carnegie Foundation for the Advancement of Teaching, is a member of the University System of Georgia. As the largest and most comprehensive research institution in southeast Georgia, the University is a residential campus of more than 20,459 students and a premier choice for the state's HOPE Scholars. Students representing 49 states and 86 nations bring a broad array of diverse backgrounds, interests and talents to the University community.

The University's hallmark is its renowned undergraduate experience, which emphasizes academic distinction, excellent teaching, outstanding research opportunities and student success. Georgia Southern focuses on students and what they value: a well-rounded collegiate atmosphere; a faculty whose first priority is teaching; and a safe, attractive campus environment that encourages learning, discovery and personal growth.

As Georgia's 'large-scale, small-feel' research University, Georgia Southern is known for offering all of the benefits of a major university with the personal feel and individualized attention of a much smaller college. Additionally, with an expanding focus on research, Georgia Southern has created a valuable niche and is attracting a record number of outstanding students from across the state, region and country.

Georgia Southern offers 125 degree programs at the baccalaureate, master's and doctoral levels through eight colleges: College of Business Administration, College of Education, College of Health and Human Sciences, Allen E. Paulson College of Engineering and Information Technology, College of Liberal Arts and Social Sciences, College of Science and Mathematics, Jiann-Ping Hsu College of Public Health and the Jack N. Averitt College of Graduate Studies. Georgia Southern is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCC) and has earned special accreditation from professional and academic associations that set standards in their fields.

Founded in 1906, Georgia Southern lays claim to being the most beautiful campus in the state. Comprising more than 900 acres, the University grounds are an arboretum-like treasure featuring gently rolling lawns, scenic ponds and soaring pines. The historic core of campus is the quintessential college portrait – Georgian-style, red-brick buildings with white columns wrapping around the tree-lined circular drive known as Sweetheart Circle. Beyond the traditional Circle, contemporary buildings blend into the existing architecture to showcase the continuing growth and expansion of campus facilities. Major projects recently completed include the construction of the new Health Services Center, the Shooting Sports Education Center, the Biological Sciences Building, the Ted Smith Family Football Center as well as Dining Commons, and the renovation of the Zach S. Henderson Library, the Foy Building, Sanford Hall and Lakeside Dining Commons.

Located in Statesboro, a safe All-American Main Street community of approximately 30,000 residents an hour northwest of Savannah, Georgia, the University provides a wealth of enriching opportunities for people of all ages. Georgia Southern benefits the region and state by engaging in research and providing public services that offer creative solutions to regional challenges. Georgia Southern also extends educational opportunities to citizens at its off-campus center located in Savannah as well as through online learning.

Georgia Southern is recognized for a nationally competitive athletics program with the University's 17 Division I teams. Now part of the Sun Belt Conference, in the 2015 GoDaddy Bowl, the Eagles won their first bowl game in program history in their very first try and the football team captured the 2014 Conference Championship in its first year in the Sun Belt. The Eagles' sweeping commitment to excellence has resulted in an unprecedented six NCAA Football Championship Subdivision (formerly I-AA) national championships and NCAA tournament participation in men's and women's basketball, baseball, golf, women's tennis, and volleyball.

Mission Statement

March 31, 2009

Georgia Southern University is a public, Carnegie Doctoral/Research university devoted to academic distinction in teaching, scholarship, and service. The University's hallmark is a culture of engagement that bridges theory with practice, extends the learning environment beyond the classroom, and promotes student growth and life success. Georgia Southern's nationally accredited academic programs in the liberal arts, sciences, and professional studies prepare a diverse and select undergraduate and graduate student population for leadership and service as world citizens. Faculty, staff, and students embrace core values expressed through integrity, civility, kindness, collaboration, and a commitment to lifelong learning, wellness, and social responsibility.

Central to the University's mission is the faculty's dedication to excellence in teaching and the development of a fertile learning environment exemplified by a free exchange of ideas, high academic expectations, and individual responsibility for academic achievement. Georgia Southern faculty are teacher-scholars whose primary responsibility is the creation of learning experiences of the highest quality, informed by scholarly practice, research, and creative activities. The University offers a student-centered environment enhanced by technology, transcultural experiences, private and public partnerships, and stewardship of a safe residential campus recognized for its natural beauty.

Georgia Southern University is committed to advancing the State of Georgia and the region through the benefits of higher education, offering baccalaureate through doctoral degrees and a variety of outreach programs. The University fosters access to its educational programs, provides a comprehensive and fulfilling university experience, and enhances quality of life in the region through collaborative relationships supporting education, health care and human services, cultural experiences, scientific and technological advancement, athletics, and regional development.

Strategic Vision

Georgia Southern University's strategic vision is to be recognized as one of the best public doctoral-research universities in the country within the next ten years.

The University System of Georgia

The University System of Georgia's Board of Regents was created in 1931 as part of a reorganization of Georgia's state government. With this act, public higher education in Georgia was unified for the first time under a single governing and management authority. The Board oversees 30 institutions including: 4 research universities, 4 comprehensive universities, 9 state universities, and 13 state colleges. The University System of Georgia also has oversight of the Georgia Archives and the Georgia Public Library System.

The governor appoints members to the Board, who each serves seven years. Today the Board of Regents is composed of 19 members, five of whom are appointed from the state-at-large, and one from each of the 14 congressional districts. The Board elects a chancellor who serves as its chief executive officer and the chief administrative officer of the University System, but is not a member of the Board. The Chair, the Vice Chair, and other officers of the Board are elected by the members of the Board. The System's programs and services are offered through three major components: Instruction, Public Service/Continuing Education, and Research.

INSTRUCTION consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates. Instruction is conducted by all institutions. Requirements for admission of students to instructional programs at each institution are determined, pursuant to policies of the Board of Regents, by the institution. The Board establishes minimum academic standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed in all cases to the institutions.

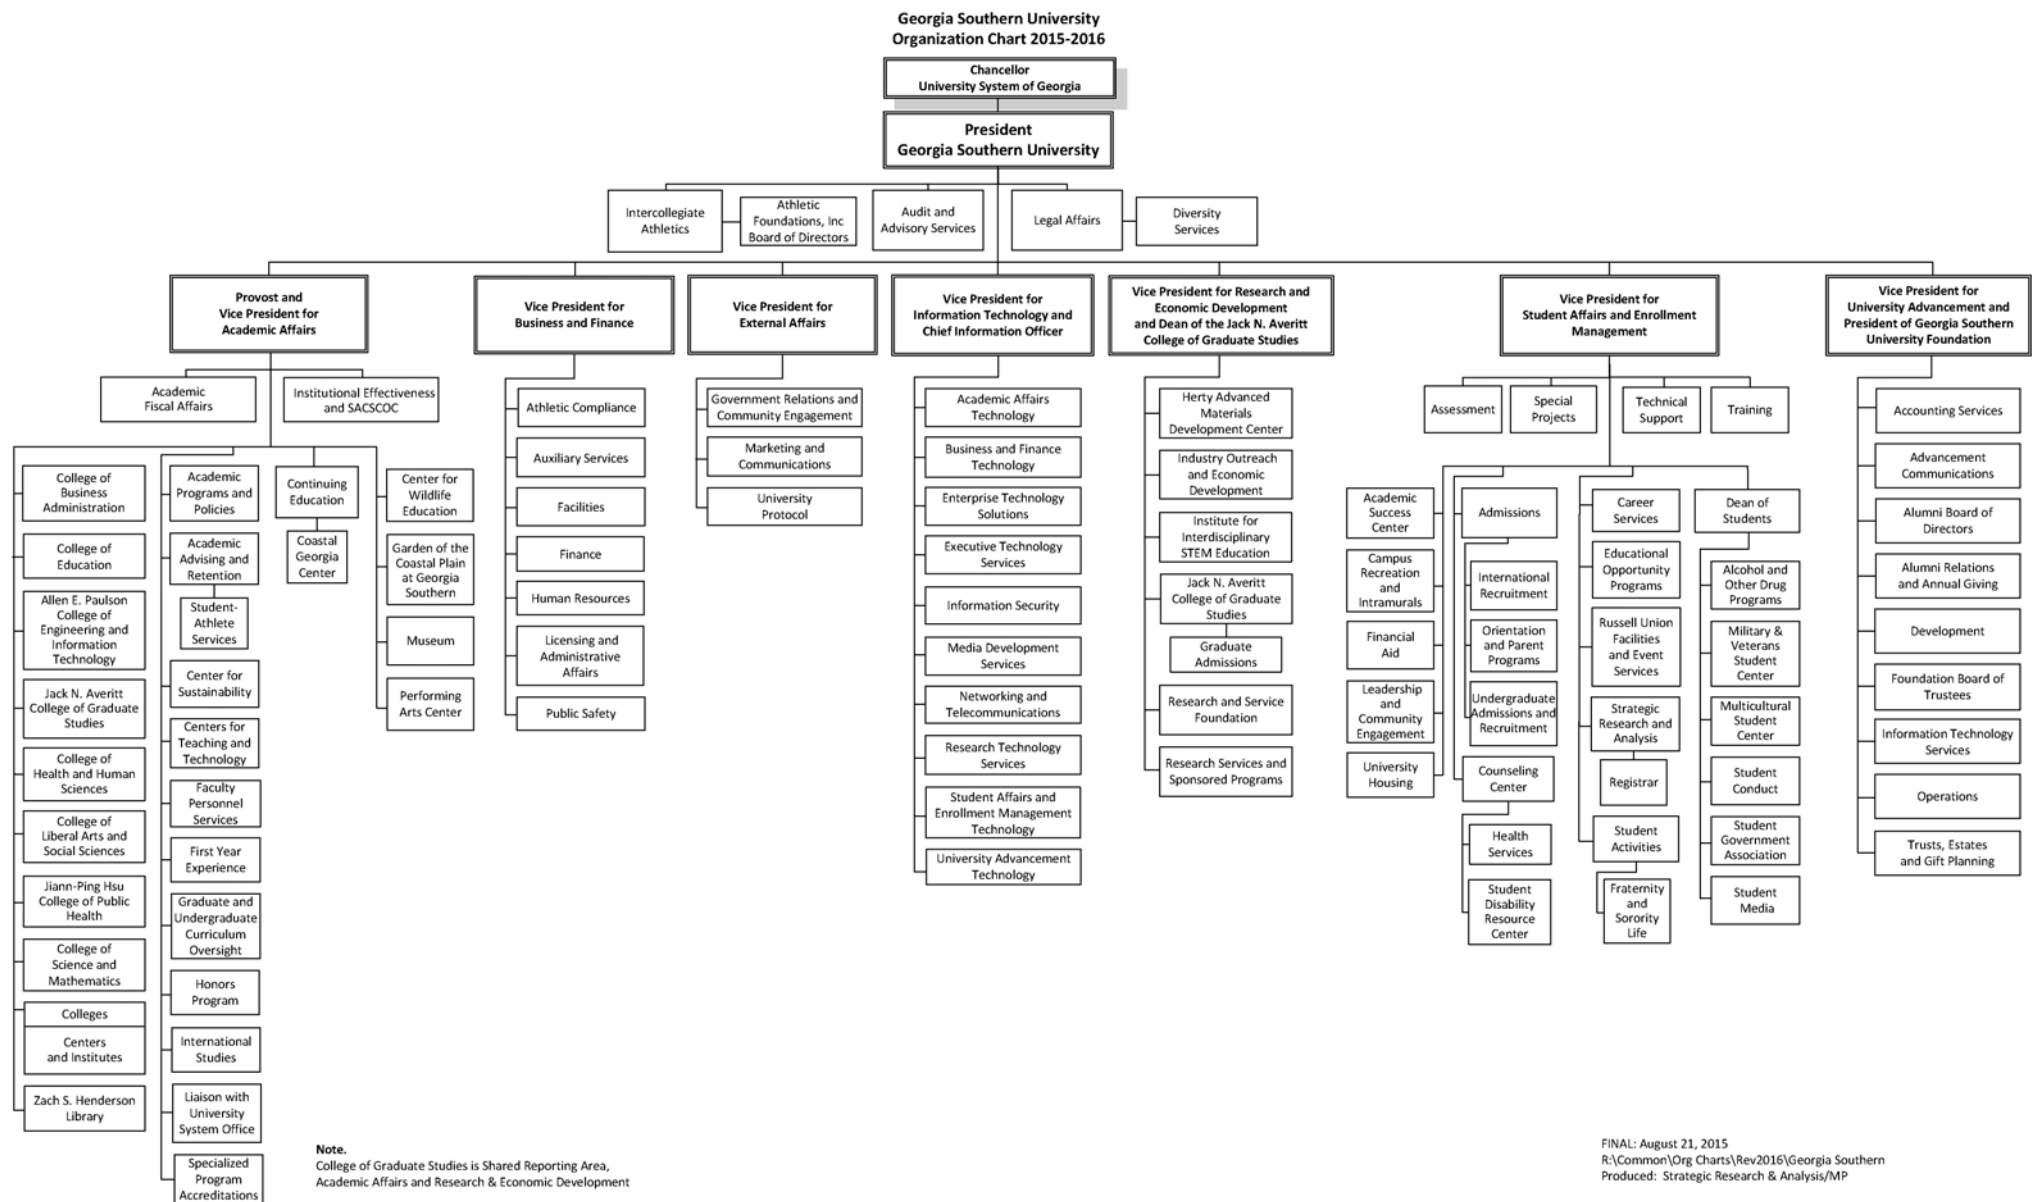

A core curriculum, consisting of freshman and sophomore years of study for students whose educational goal is a degree beyond the associate level, is in effect at the universities and two-year colleges. This curriculum requires 60 credit hours, including 42 in general education--humanities and fine arts, mathematics and natural sciences, and social sciences--and 18 in the student's chosen major area of study. It facilitates the transfer of freshman and sophomore degree credit hours within the University System.

PUBLIC SERVICE/CONTINUING EDUCATION consists primarily of non-degree activities and special types of college-degree-credit hour courses. Non-degree activities may include short courses, seminars, conferences, lectures, consultative, and advisory services in many areas of interest. Non-degree public service/continuing education is conducted by all institutions. Typical college-degree-credit hour public service/continuing education courses are those offered through extension center programs and teacher education consortia.

RESEARCH encompasses investigations conducted primarily for discovery and application of knowledge. These investigations include clearly-defined projects in some cases, non-programmatic activities in other cases. Research is conducted both on and off campus and explores a variety of matters related to the educational objectives of the institutions and to general societal needs.

The policies of the Board of Regents for the government, management, and control of the University System and the administrative actions of the Chancellor provide autonomy for each institution. The executive head of each institution is the President, whose election is recommended by the Chancellor and approved by the Board.

Note. Totals above are a subset of all first-time graduate students. They include only students with valid scores in noted category.
Beginning first-time Graduate Student - A degree-seeking student who is entering graduate school in the fall. USG Board of Regents definition.

Miller Analogies Test (MAT). The MAT is a high-level mental ability test requiring the solution of problems stated as analogies. Performance on the MAT is designed to reflect candidates' analytical thinking, an ability that is critical for success in both graduate school and professional life. The MAT scaled scores currently range from 200 to 600 with a mean (average) of 400.

Source: http://www.pearsonassessments.com/postsecondaryeducation/graduate_admissions/mat.html

The Graduate Management Admission Test® (GMAT®) examination is a standardized test designed to measure basic verbal, mathematical, and analytical writing skills that have been developed over a long period of time through education and work.

¹The Graduate Record Examinations® (GRE®) General Test measures verbal reasoning, quantitative reasoning, critical thinking, and analytical writing skills that have been acquired over a long period of time and that are not related to any specific field of study.

Three scores are reported on the General Test:

1. a verbal reasoning score previously reported on a 200-800 score scale, in 10-point increments; now reported on a 130-170, in 1-point increments
2. a quantitative reasoning score previously reported on a 200-800 score scale, in 10-point increments; now reported on a 130-170, in 1-point increments
3. an analytical writing score reported on a 0 to 6 score scale in half-point increments.

Source: http://www.ets.org/gre/revised_general/about?WT.ac=qrehome_qreabout_b_130807

²Beginning Fall 2011, Georgia Southern began accepting the revised Graduate Record Examinations® (GRE®) Verbal and Quantitative Reasoning scores that changed from 200 through 800 to 130 through 170. Fall 2013 counts of students reflect the revised GRE scoring format ranging from 130 to 170.

Note. State of Legal Residence does not necessarily imply citizenship.

¹In Fall 2013, Fall 2014, and Fall 2015, total U.S. includes 40, 53, and 50 resident and non-resident aliens, respectively, who had a current state of legal residence.

²Total Non-USA is comprised of resident and non-resident aliens without a current state of legal residence.

Appendix

Strategic Planning

At Georgia Southern University, strategic planning is the process by which the institution sets its vision, defines its mission, and articulates a strategy for achieving these goals consistent with the values of the institution. Key among these values are transparency and inclusiveness in the planning process.

Periodically, the University's leadership convenes to discuss and develop action items that advance the University's vision and goals. The deans and department chairs share these action steps with faculty, staff, and students for review and comment. Study teams are formed and charged with moving specific action items forward. These teams consist of faculty, staff, and, where appropriate, students. All constituencies are welcome and encouraged to participate in the University's planning process.

The four Strategic Themes identified through the University's strategic planning exercises are listed below:

1. Promote Academic Excellence

1. Enhance graduate education through the growth of strategic and sustainable high-caliber, academic programs; the revitalization of the College of Graduate Studies; and the development of an aggressive enrollment management model.
2. Sustain and strengthen the University's strong teaching ethos.
3. Develop differential teaching workloads that allow our strongest teachers to focus on student learning in the classroom, while our strongest researchers model the conducting of scholarly inquiry and creative activity.
4. Create scalable, high-quality, online learning programs and services.
5. Increase transcultural opportunities and globalization of the curriculum.
6. Gain Carnegie Elective Classification for Community Engagement.

2. Enhance Student Success

1. Create a warm and welcoming environment for members of the military and veterans that address their specific needs.
2. Aggressively and proactively increase student retention, progression, and graduation through multiple venues that engage our students in the academic community and ensure that they have the support needed to achieve their academic goals.
3. Enhance the University's general education program to instill in our graduates desired attributes.

3. Increase Research, Scholarship, and Creative Achievement

1. Aggressively attract new talent to our faculty, including those who bring with them demonstrated research success.
2. Develop a plan for becoming a Carnegie "high activity" research institution without compromising our recognized excellence in teaching and service.
3. Identify cross-institutional collaborative opportunities.

4. Maintain Fiscal Sustainability

1. Be ethical and accountable to all constituencies and be able to document accountability.
2. Develop a long-term financial model that aligns with the institution's mission and strategic vision.
3. Ensure equitable compensation of the University's faculty and staff.
4. Update the Campus Master Plan.
5. Grow the University's green-campus initiatives.
